Review of Fees and Charges 2024/25

Policy overview

This document outlines the Council's proposed fees and charges, which are applicable for the 2024-25 years unless otherwise stated. User fees and charges are one of the ways in which the Council can pass on some costs directly to those who use our services and facilities. In this way, fees and charges reduce the amount of funding that is collected by rates. How much the Council tries to recover from fees and charges is defined in the Revenue and Financing Policy, also currently open for consultation. A number of our fees and charges are required to be set and/or reviewed through a process that involves public consultation. The review process is not legislatively tied to the Long Term Plan process, but is aligned with budgeting timeframes out of practicality.

Overview of changes proposed to the Policy

In 2023, a full review of user fees and charges was undertaken and Council approved the updated schedule in November for adoption from 1 December 2023. They also supported the recommendation to apply only an inflationary adjustment for the first year of the 2024/34 Long Term Plan. The schedule has, therefore, been revised to include a small adjustment (2.7%) to all fees and charges with some exceptions. These include:

- Waste (Section 5) – charges for Murupara Transfer Station are now included (please note these will be largely consistent with Whakatāne Transfer Station with some minor alterations)
- Airport (Section 34) – fees and charges were not altered during the 2023 review but have now been adjusted in consultation with the Whakatāne Airport Users Group
- Halls, sports fields and facilities (Sections 22,26-30) – NO CHANGE (fees and charges to remain as per 2023 review until 2025/2026 financial year)

Fixing the Amount of Charge

The amount of charge for requests of official information will be determined by:

- a) The aggregate amount of staff time exceeding two hours spent to action the request. This will include search and retrieval of information, the provision of transcripts and the supervision of access.
- b) The number of A4 sized photocopies or printed pages to be provided. Non-standard sized photocopy or printed paper such as that used for reproducing maps and plans will be charged out as per the charges set down in this fees and charges schedule.
- c) For any other cost, the amount actually incurred in responding to the request. This will cover the provision of copies of video or audio and the provision of documents in electronic form, the retrieval of information off-site, or other situations where a direct charge is incurred.
- d) Where repeated requests from the same source are made in respect of a common subject over intervals of up to eight weeks, requests after the first should be aggregated for charging purposes.
- e) The charge shall represent a reasonable fee for access given. It may include time spent:
 - (i) in searching an index to establish the location of the information; and
 - (ii) in locating (physically) and extracting the information from the place where it is held; and
 - (iii) in reading or reviewing the information; and
 - (iv) in supervising the access to the information.
- f) The charge shall not include any allowance for:
 - (i) extra time spent locating and retrieving information when it is not where it ought to be; or
 - (ii) time spent deciding whether or not access should be allowed and in what form. Note however that the actual, physical editing of protected information is chargeable.

Staff time

Time spent by staff searching for relevant material, abstracting and collating, copying, transcribing and supervising access where the total time involved is in excess of two hours shall be charged out as follows, after the second hour:

- a) \$50-\$130 per half hour or part thereof dependent on staff involved.
- b) Time spent by staff in deciding whether or not to approve access and in what form to provide information shall not be charged. While the decision to redact protected information is not chargeable, the physical editing is part of making the information available and is subject to charges.

Photocopying

Photocopying or printing shall be charged out as per charges set down in section 36.

Other costs

All other costs incurred shall be fixed at an amount which recovers up to the actual costs involved, including:

- b) the retrieval of information off-site

- c) reproducing a video or audio recording
- d) arranging for the applicant to hear or view an audio or visual recording
- e) providing a copy of any map, plan or other document larger than A4 size

Remission of charges

The liability to pay any charge may be modified or waived at the discretion of the Chief Executive. Such decisions shall be made on a case by case basis taking into consideration the following:

- a) whether payment might cause the applicant hardship
- b) whether remission or reduction of the charge would facilitate good relations with the public or assist the Council in its work
- c) whether remission or reduction of the charge would be in the public interest because it is likely to contribute significantly to public understanding of, or effective participation in, the operations or activities of the Council, and the disclosure of the information is not primarily in the commercial interest of the requester. In order to determine the level of public interest the following questions could be asked:
 - (i) Is the use of the information by the requester likely to make a significant contribution to the operations and activities of the Council?
 - (ii) Has the Council requested submissions from the public on a particular subject and is the information necessary to enable informed comment?
 - (iii) Is the use of information likely to contribute significantly to the understanding of the subject by the public at large as opposed to the individual understanding of the requester or a narrow segment of interested people?
 - (iv) Is the information already in the public domain in either the same or similar form which the requester could acquire without substantial cost?
 - (v) Is the public at large the primary beneficiary of the expenditure of public funds necessary to release the information or is it for the requester or a narrow segment of interested persons?
 - (vi) Is the information primarily in the commercial interest of the requester rather than the public interest?

Deposit

- 37.6.1.** A \$50.00 deposit may be required where the charge is likely to exceed \$100.00 or where some assurance of payment is required to avoid waste of resources. A deposit may only be requested after a decision has been made to make the information available.
- 37.6.2.** The applicant shall be notified of the amount of deposit required, the method of calculating the charge and the likely final amount to be paid. Work on the request may be suspended pending receipt of the deposit.
- 37.6.3.** The unused portion of any deposit will be refunded to the applicant together with a statement detailing how the balance was expended.

Ombudsman Investigations

- 37.7.1.** Applicants will be advised at the time they are informed of charges to be paid, that in terms of section 28(1)(b) of the Official Information Act 1982, the Ombudsman may investigate and review any decision on the charge to be paid in respect of a request for access to official information.
- 37.7.2.** A record will be kept of all costs incurred. Whenever a liability to pay is incurred the applicant will be notified of the method of calculating the charge and this fact noted on the record.
- 37.7.3.** Any Ombudsman discharging statutory functions of investigation under the Ombudsmen Act 1975 in terms of the Local Government Official Information and Meetings Act 1987 is not subject to any charging regime.

Cost control

37.8.1.	In order to reduce the amount of staff time and resources incurred in dealing with requests the Council may ask for requests for official information to be in writing in order to narrow down the scope of the request and avoid confusion as to what is being requested.	
37.8.2.	The Council may refer the request to another organisation if the request relates more closely to the functions of another Council or government department.	
38.	MISCELLANEOUS FEES	
	Any requests for information from all Council departments not otherwise specified	At cost
	Other certificates or approvals	\$155.00
	Record of title/certificate of title	\$40.00
	Survey plans	\$20.00
39.	STAFF TIME	
	Unless otherwise specified, all staff will be charged out at the following rates	\$280.00
	a) \$100.00 per hour or part thereof, with a minimum half hour charge, and	
	b) The charge out rate referred to above will be set in accordance with the seniority or grading of the staff member required to deal with the request.	

Appendix 1 - TRADEWASTE FEES AND CHARGES

Introduction

In accordance with the Whakatāne District Council Combined Waters Bylaw 2017, Trade Waste fees and charges will be set through the Annual Plan process. The Council's Fees and Charges document provides the mechanism for achieving this purpose and is reviewed annually as part of the Council's Long Term Plan or Annual Plan process (as relevant in any given year).

Trade Waste Charges

Fees and Charges for the disposal of trade waste under the Combined Three Waters Bylaw will be charged on the following basis:

C. Tankered Waste Charges		
C1	Tankered Wastes	Set as a fee(s) per tanker load, or as a fee(s) per cubic metre, dependent on the Trade Waste category
C2	Toxicity	Payment based on the defined form(s) of the toxic substance(s) $\$/kg$ and/or $\$/m^3$

SYSTEM OF CHARGING IN RESPECT OF VOLUME AND STRENGTH OF TRADE WASTES AND SPECIAL WASTES

1. Trade wastes producers will be charged the actual cost involved in treating the trade wastes received by Council into the sewer or treatment plant.
2. The total cost to Council of receiving, conveying, treating and disposing of wastewater from within its district is made up of capital, maintenance, operating consumables, labour and administration costs.
3. The costs for each discharger of wastewater are apportioned to volume, Biochemical Oxygen Demand (BOD₅), Inert Suspended Solids (ISS), Volatile Suspended Solids (VSS), total nitrogen (TN) and total phosphorous (TP) of discharged wastewater, and summed to give the total costs of reticulation to, and treatment at, the treatment plant.
4. The average annual volume in cubic metres of all sewage, wastes etc. received at the Council's treatment plant where the trade wastes are treated, during each subsequent financial year, is designated as Q (m³/year).
5. The average annual BOD₅ in kilograms of all sewage wastes etc. received at the Council's treatment plant where the trade wastes are treated, during each financial year shall be designated as B_w (kg/year).

6. The average annual ISS in kilograms of all sewage wastes etc. received at the Council's treatment plant where the trade wastes are treated, during each financial year shall be designated as D_w (kg/year).
7. The average annual VSS in kilograms of all sewage wastes etc. received at the Council's treatment plant where the trade wastes are treated, during each financial year shall be designated as E_w (kg/year).
8. The average annual TN in kilograms of all sewage wastes etc. received at the Council's treatment plant where the trade wastes are treated, during each financial year shall be designated as F_w (kg/year).
9. The average annual TP in kilograms of all sewage wastes etc. received at the Council's treatment plant where the trade wastes are treated, during each financial year shall be designated as G_w (kg/year).
10. The estimated annual cost of receiving and disposing of (but not treatment) all such sewage during each subsequent financial year is designated as C_1 (\$).
11. The estimated annual costs to the Council for treatment of all sewage during each financial year is designated as C_2 (\$), and apportioned to volume, BOD₅, ISS, VSS, TN and TP on a site-specific basis relating to wastewater treatment processes. The estimated apportionment of costs is shown below, however Council reserves the right to amend the basis of apportionment based on actual operational costs incurred in a given financial year.

System	% of total operational treatment cost apportioned to					
	Volume	BOD ₅	ISS	VSS	TN	TP
Other WwTP	To be confirmed on an individual basis					

12. Charges in respect of volume of wastes shall be based on either the measured volume of wastewater discharged from the premises or the volume estimated from the measured volume of water entering the premises during the period corresponding most closely with each financial year. This volume shall be designated as V (m³/year).
13. The charges in respect of BOD₅, ISS, VSS, TN and TP shall be based on the measured composition of wastewater discharged from the premises during the period corresponding most closely with each financial year. This BOD₅, ISS, VSS, TN and TP shall be respectively designated B_T , D_T , E_T , F_T , and G_T (kg/year).
14. The charge for each financial year levied by the Council on the occupier shall be calculated using the following formula:

Annual Trade Waste Charge =

$$\left(C_1 \times \frac{V}{Q} \right) + \left[C_2 \times \left[\left(\frac{V}{Q} \times Volume \right) + \left(\frac{B_T}{B_W} \times BOD \right) + \left(\frac{D_T}{D_W} \times ISS \right) + \left(\frac{E_T}{E_W} \times VSS \right) + \left(\frac{F_T}{F_W} \times TN \right) + \left(\frac{G_T}{G_W} \times TP \right) \right] \right]$$

Where *Volume*, *BOD₅*, *ISS*, *VSS*, *TN* and *TP* should be replaced by the relevant percentages shown in (11) above.

In calculating any such charge any domestic sewage discharged from the premises affected shall be deemed to be trade wastes.

15. The occupier will also be levied all reasonable costs incurred by Council to measure the discharge volume or characterise the discharged wastewater as required to determine (12) and (13) above.
16. Where the trade waste charge calculated, is less than the uniform water closet/ urinal charge which would be applicable to this property, then the uniform water closet /pan charge will apply.
17. Council reserves the right to amend this trade waste charging system as required to recover actual operational costs relating to wastewater reticulation, treatment and disposal.
